

<i>Session Title</i>	Digital Applications and Scenario Innovation for Goal Realization
<i>Session Description</i>	<p>2025 marks the 10th anniversary of the 2030 Agenda for Sustainable Development and the 30th anniversary of the Fourth World Conference on Women held in Beijing. The world is at a pivotal point for driving transformative changes towards the Sustainable Development Goals (SDGs), particularly in urban development and new economic models. "Future Cities and New Economy: Digital Innovation and Scenario Practices for Achieving the Goals" will explore how digital technologies and innovative applications can accelerate sustainable, inclusive, and resilient urban and economic transformations.</p> <p>This session will be organized into three thematic segments:</p> <p>Digital-Driven Urban Sustainability: Showcasing how emerging digital technologies like satellite, AI, and digital twins support sustainable urban planning, monitoring, and service delivery aligned with SDG 11.</p> <p>Scenario-Based Innovations for the New Economy: Highlighting practical digital innovations that foster sustainable consumption, creative industries, and green economy. This part will invite UNIDO ITPO (Beijing Office) to provide special support.</p> <p>Women's Leadership in the New Economy: Celebrating 30 years since the Beijing World Conference on Women by discussing the critical role of women leaders in shaping new economies, particularly in digital innovation, entrepreneurship, and sustainable development. This part will invite UN Women and Chinese Academy of Science and Technology for Development to provide special support.</p>
