

FBAS 2025

The 5th International Forum on Big Data for Sustainable Development Goals

September 6-8, 2025 Beijing, China

Theme

Digital Intelligence Driving Sustainable Development:
The 10th anniversary of the 2030 Agenda

The year 2025 marks the 10th anniversary of the United Nations 2030 Agenda for Sustainable Development. Digital technologies, represented by Earth observation, big data, and artificial intelligence, are capable of bringing about innovative changes in multiple aspects of SDG monitoring and evaluation. They also drive the formulation and implementation of integrated solutions to sustainable development challenges across sectors and regions.

The 5th International Forum on Big Data for Sustainable Development Goals (FBAS 2025) will be held from 6 to 8 September 2025 in Beijing. This forum will bring together top scientists, policymakers, industry leaders, and practitioners from around the globe to explore how to innovatively leverage digital technologies to accelerate the achievement of the SDGs, injecting new momentum and wisdom into global sustainable development.

Keynote Speakers

(Alphabetical order by last name)

Quarraisha Abdool Karim
President of the World Academy of Sciences

GUO Huadong
Director General of the International Research Center of Big Data for Sustainable Development Goals

Ameenah Gurib-Fakim
