

<i>Session Title</i>	Seminar on Digital Solutions and Big Data Applications from the Perspective of South-South Cooperation
<i>Session Description</i>	<p>Under the framework of UNOSSC GSSDC II, UNOSSC and CBAS will jointly organize this event. Panelists will share good practices of digital solutions and big data applications in agriculture, environmental protection, and energy, and explore the potential for replicating and scaling up these good practices in developing countries. Additionally, leveraging the South-South and triangular cooperation platform established by China-UN Global South-South Development Facility, the event will broker partnerships among developing country counterparts in the relevant thematic areas to advance the achievement of the Sustainable Development Goals.</p>
